Confidential Business Information: Confidential Business Information (CBI) is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Pursuant to 49 Code of Federal Regulations (CFR) § 190.343, you may ask PHMSA to give confidential treatment to information you give to the agency by taking the

following steps: (1) mark each page of the original document submission containing CBI as “Confidential”; (2) send PHMSA, along with the original document, a second copy of the original document with the CBI deleted; and (3) explain why the information you are submitting is CBI. Unless you are notified otherwise, PHMSA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this notice. Submissions containing CBI should be sent to Kay McIver, DOT, PHMSA-PHP-80, 1200 New Jersey Avenue, SE, Washington, DC 20590-0001. Any commentary PHMSA receives that is not specifically designated as CBI will be placed in the public docket for this matter.

SUPPLEMENTARY INFORMATION:

PHMSA received a special permit request from FGT seeking a waiver from the requirements of 49 CFR § 192.611(a) and (d), “Change in class location: Confirmation or revision of maximum allowable operating pressure”, and § 192.619(a), “Maximum allowable operating pressure: Steel or plastic pipelines”. This special permit is being requested in lieu of pipe replacement or pressure reduction for thirteen special permit segments in the FGT pipeline system. The FGT system totals 1.92 miles of pipeline located in four (4) counties (Brevard, Lake, Orange, and Osceola) in the State of Florida, where the class locations have changed from Class 1 to Class 3, or Class 2 to Class 3. The pipeline special permit segments are short in

length, not contiguous, and comprise of 26-inch and 30-inch diameter pipelines with existing maximum allowable operating pressures of 974 to 977 pounds per square inch gauge (psig). The installation dates of the pipeline segments range from 1968 to 1995.

The request, proposed special permit with conditions, and Draft Environmental Assessment (DEA) for the FGT pipeline are available for review and public comment in Docket No. PHMSA-2020-0001. We invite interested persons to review and submit comments on the special permit request and DEA in the docket. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, DC, under authority delegated in 49 CFR § 1.97.

Alan K. Mayberry,
Associate Administrator for Pipeline Safety.
